

SEA KING
RETIREMENT

SPONSORSHIP
OPPORTUNITIES

BE A PART OF HISTORY NOW IS YOUR CHANCE!

DIFFERENTIATE YOURSELF FROM THE COMPETITION by supporting the Canadian Armed Forces, Royal Canadian Air Force, and Canada as they say farewell to the workhorse of the air force and navy, the CH-124 Sea King helicopter.

2018 marks the retirement of this versatile ship-borne maritime helicopter that has been in operation serving Canada since 1963.

In honour of this historic finale, the Royal Canadian Air Force is inviting current and former military members, their families, and government dignitaries to join them for a two-day retirement event.

The celebration is expected to start in Victoria, BC, Friday Nov. 30, 2018, with a meet and greet, followed the next day by a Sea King Retirement Parade and Sea King Ceremonial Fly Past at 443 Maritime Helicopter Squadron in Pat Bay, North Saanich BC, and ending on a high note with a Formal Sea King Retirement Dinner on Saturday evening in the Squadron's new hangar Arundel Castle. This date has not been confirmed yet.

This prestigious event is expected to capture local, national, and international attention through media and social media channels.

Your sponsorship support is needed to make this celebration one for the history books.

ABOUT THE SEA KING

THE CH-124 SEA KING is a ship-borne maritime helicopter with unique capabilities. The aircraft's compact design boasts a fold-up rotor and tail that help it to fit on even the smallest warship's deck. Its amphibious hull enables it to conduct an emergency water landing.

The CH-124 is powered by two turboshaft engines and is equipped with subsurface acoustic detection equipment and homing torpedoes. Employing these, the Sea King lifts off from destroyers and frigates to locate and destroy submarines.

The helicopter also plays a vital role in international peacekeeping operations. It has been heavily committed to the international campaign against terrorism conducting hundreds of missions to transport troops and locate suspicious vessels.

It has seen service in a variety of international and domestic roles in recent years including the Persian Gulf, Somalia, Yugoslavia, East Timor, Manitoba Floods, and Haiti.

Indeed, the Sea King is one of the busiest aircraft in Canada's Air Force. However, the Sea King will be replaced by the CH-148 Cyclone in 2018.
